Computer Engineering Curriculum Committee Meeting
November 24, 2015, 11:45 am – 12:35 pm, Larsen 229

In attendance: Arunava Banerjee, Julio Chavez, Renato Figueiredo Rob Fox, Allison Gatsche, Tuba Kahveci, Herman Lam, Brent Lewis, Bernard Marger, Richard (Nemo) Newman, Ye Xia

Agenda

- Approval of minutes from 10/20/2015 meeting - Approved
- Update on the UCC process for CPE 3923C (CpE Design 1) and CPE 4924C (CpE Design 2)
  Both courses will be up for approved in the January 20, 2016 College of Engineering Curriculum Meeting.
- Discussion item: ABET requirements for the CpE program; coordination between the CISE and ECE department
  Ye Xia described the current status of the ABET process for the Computer Engineering program. An action item is to convene a meeting between Ye Xia, Herman Lam, and Henry Zmuda (ABET coordinator for ECE) to coordinate the data collection for ECE courses which require ABET data.
- Discussion item: proposal of the creation of a joint individual study course CPE 4905
  Currently, a Computer Engineering student wanting to enroll in an individual study course has to enroll in either CIS 4905 or EEL 4905. The merit of creating a Computer Engineering individual study course was discussed, with joint ownership between CISE and ECE faculty, the action item is begin the formal UCC process.
