Computer Engineering Curriculum Committee Meeting  
October 9, 2017  
12:50 – 1:40 pm

In attendance: Arunava Banerjee, Renato Figueiredo, Rob Fox, Allison Gatsche, Jacob Locke (ACM), Christian Marin (ACE), Herman Lam, Richard Newman, Ye Xia, Tuba Yavuz

Minutes

1. Approve 9/18/2017 meeting minutes
   Approved

2. Vote on S/U option for technical electives (Allison Gatsche)
   - Confirmation from CpE Curriculum Committee as to whether or not this is permissible (as it’s not plainly stated in the catalog)
     The discussion FOR this proposal centered on the flexibility that it would give to students, allowing them to explore areas and courses outside of their main area of interest and comfort zone. The discussion AGAINST this proposal centered on the possible abuses. Although the proposal has merit, the vote was NO since a student can always petition for the S/U option for a technical elective.

3. Accepting AP STA2023 for STA3032 (Allison Gatsche)
   The discussion FOR this proposal centered on an effort to aid in minimizing credit hours completed at UF. The discussion AGAINST this proposal centered on the question of quality and variability in quality of the students who passed AP STA2023 and the importance of statistics for CPE students. Thus, the vote was NO for this proposal.

4. ACM news
   Jacob Locke reported that ACM is creating committees to help with their upcoming large events. In addition, there are plans to bring back the Highschool Programming Competition. Finally, the ACM Friday Night Hacks will be held in the ACM office, the “fishbowl”.

5. COE ABET prep visit (Ye Xia): Information from meeting with Richard Warder, mock visit chair on Sept 25
   Ye Xia talked about the ABET mock review chair Richard Warder’s information session on how to prepare ABET self-study report. The ABET review team will be seriously looking into the CpE program according to ABET’s criteria. We need to prepare the self-study report very carefully.

6. UF Quest (Herman Lam, Allison Gatsche)
   - Information from meeting with Angela Lindner
     This item has been tabled; to be discussed in the November meeting.
